FROM SEEDLING TO HARVEST FROM HARVEST TO THE WORLD.

Founded in Hatay in 1992, KARAALI SYNTHETIC WEAVING INDUSTRY TRADE AND IMPORT EXPORT LIMITED COMPANY carries forward a deeply rooted family tradition built on generations of experience in fresh fruit and vegetable production and trade.

Today, we combine this heritage with modern production facilities, advanced technology and professionally managed operations to deliver fresh produce that meets international quality standards. With a strong commitment to quality, reliability and customer satisfaction, KARAALI has established itself as a trusted partner in both domestic and global markets.

Our operations are supported by an extensive production and storage infrastructure across Türkiye. In Hatay/Antakya, our facilities include 8,000 m² of cold storage and 17,000 m² of indoor production space, where citrus and stone fruits are processed efficiently using fully automated Reemoon systems with AI-integrated technology.

In Manisa, we operate 10,000 m² of cold storage and 14,000 m² of indoor production space. Our advanced Compac and TOMRA processing lines enable precise sorting and processing of cherries using state-of-the-art automation and artificial intelligence technologies.

Our Muğla facility provides 2,000 m² of cold storage and 3,200 m² of indoor space, while our packaging facilities at the Antalya Fruit Market offer a total indoor area of 1,000 m². In Mersin, our modern cold storage facility, commissioned in 2023, adds a further 10,000 m² of indoor capacity to our growing infrastructure. With a total indoor facility capacity of 45,200 m², KARAALI operates an integrated production, processing, cold storage and distribution network across key agricultural regions of Türkiye. From carefully selected fresh produce to advanced processing, packaging and storage, every stage is managed with a focus on quality, efficiency and food safety.

Building on generations of expertise and supported by modern technology and a strong international market network, KARAALI delivers the freshness and quality of Türkiye's agricultural production to customers around the world.

OUR WAREHOUSES

We have our own warehouses in Russia.

GLOBAL MARKET

We supply leading re

partners in Russia, C

INTERNATIONAL MARKET & LOGISTICS

With our own warehouses in Russia and a strong international distribution network, KARAALI delivers both its own production and carefully selected fresh fruits and vegetables to key markets across Russia, Europe and the Middle East.

Our products are regularly supplied to leading retail chains such as Magnit, Lenta and X5 Retail Group, as well as selected retail partners across our international markets.

Supporting this extensive market presence is our group company, Blackrose Logistics, which provides professional international road transportation services. With a fleet of 55 tractor units and 130 refrigerated trailers, Blackrose ensures reliable cold-chain transportation, preserving product freshness and quality throughout the journey.

By integrating production, storage, export and logistics within a coordinated structure, KARAALI maintains greater control over the entire supply chain, enabling faster, safer and more reliable deliveries from our facilities to customers across international markets.

As of 2026, the total turnover of KARAALI and its affiliated companies has reached USD 80 million

BLACKROSE LOJİSTİK

Founded in 2020 and operating as part of KARAALI, Blackrose provides professional transportation and logistics services to KARAALI as well as a wide range of customers across the industry.

With a modern fleet of 65 tractor units and 120 semi-trailers, Blackrose delivers reliable, efficient and well-coordinated transportation solutions, supporting both fresh produce logistics and general freight operations.

Combining a strong fleet, operational expertise and professional logistics management, Blackrose ensures safe and timely deliveries while also strengthening KARAALI's integrated supply chain from production and storage to export and distribution.
